LITTLE GIRL BIT BY A DOG

Four-Year-Old Daughter of William Q. Patterson Is Disfigured

William L. Patterson, residing on Cass street, reported to the police on Monday that his four-year-old daughter had been horribly bitten on the face by a dog owned by a resident of Union street.

The father says the child will be marked for life and that it took two doctors over an hour to sew up the

flesh of his daughter.

According to the father's statement, the animal has bitten other children recently and he placed the case in the hands of the police who are to dispose of the dog before he plants his bicuspid in the flesh of other innocent children in the neighborhood.

POMONA GRANGE

Large Crowd to Be in This City on Wednesday

East Rockingham Pomona Grange will draw a large number of people to Portsmouth on Wednesday. The deputy, Mr. J. L. Pendexter of Intervale, will make his official visit at the forenoon session beginning at ten o'clock. The afternoon will be given over to an open public session in Freeman's Hall with the following programme:

Invocation, Rev. William P. Stanley.
Address of welcome, Amos O. Benfield, Master of Strawberry Bank Grange.

Response, Charles W. Barker, of Exeter, Master of the Pomona Grange.
Vocal solo, Mrs. C. A. Badger of Portsmouth.

Address, Mayor E. H. Adams, of Portsmouth.
Vocal duet, Miss Ruth M. Drake and Mrs. Nellie Scavey of Rye.

Address, "Three European Months," Rev. Frank B. Pressey of Cambridge, Mass.

Reading, Mrs. Louise E. Smallcon of Portsmouth.
Remarks, J. L. Pendexter, of Intervale.

TAFT TO ALASKA

Washington, March 9.—It was semi-officially announced at the White House today that President Taft will journey to Alaska this summer. The president spoke of his plans to visit Alaska and Sutherland of Utah, who called on him to extend an invitation to attend the forty-third annual encampment of the Grand Army of the Republic, to be held at Salt Lake from August 9 to 11.

President Taft probably will cover the greater part of the country in the trips the next four years. He is scheduled for an extensive southern trip this fall and early winter. He practically has promised that he will visit every southern state.

TO REOPEN NAVY YARDS IN SOUTH

Washington, March 9.—The order of the secretary of the navy, given at the direction of President Roosevelt, abolishing the navy yards at Pensacola, Fla., and New Orleans, La., has been revoked by Secretary Meyer.

Secretary Meyer said that congressional delegations and others from Florida and Louisiana had made representations to him claiming that the original order was illegal and that, while he had no doubt as to its legality, the case had been put before the department in such a way as to effect a reconsideration of it.

WISCONSIN AT NAVY YARD

THE UNITED STATES BATTLESHIP WISCONSIN, WHICH ARRIVED HERE THIS MORNING.

Beautiful Sight As Great Battleship Came to the Wharf This Morning

The battleship Wisconsin of the world circling fleet, in command of Captain F. E. Beatty, arrived at the navy yard at 8:49 o'clock this morning. The battleship came up at dead low water with Yard Pilot Olson on the bridge and the ship docked under her own steam and without the assistance of any tug. She was tied up at the store house dock.

The story of the trip around the world and the part the Wisconsin took has already appeared in the columns of the Herald. Captain Beatty assured the Herald reporter that he was more than glad to get back.

All the officers appeared to be pleased to come to Portsmouth.

The Wisconsin was Rear Admiral W. P. Potter's flagship but he was detached at Hampton Roads for temporary duty and two of his staff came here: Lieut. Comdr. L. C. Palmer, Ensign E. L. Canage.

The complete roster of the officers of the Wisconsin is as follows:
Captain F. E. Beatty.
Lieutenant Commander E. F. Hutellison.

Lieutenant Commander C. T. Vogelgesang.
Lieutenant Commander D. V. H. Allen.

EVENTS OF ELIOT

The Marriage of Miss Cole and Mr. Barnaby

Important Papers Presented At a Grange Meeting

Eliot, Me., March 9.

Miss Anna M. Cole of South Eliot and Mr. Earl R. Barnaby were married at two o'clock this afternoon in Portsmouth Methodist parsonage by Rev. George W. Parker. The bride is the daughter of Mr. and Mrs. Henry C. Cole. The groom is the hospital steward on the United States prison ship Southery and is the son of James R. Barnaby of Denver, Col. They were accompanied by the bride's sisters, Misses Gertrude and Lena Cole. They will reside for the present with her parents, which is pleasant news to the neighbors who have liked this fine young woman and were expecting to lose her.

The Congregational church trustees will hold a session tonight after the weekly prayer meeting.

A dozen or more new faces were seen this morning on the car that left Dover at six o'clock for the ferry. They were painters from Dover and South Berwick who are working on

the New York yard to take off her ammunition, but instead kept right on for this station.

Rear Admiral Moore received a wireless from the big ship when she was off the Nantucket Lightship Monday forenoon stating that the ship would arrive in the harbor early on Tuesday morning.

As soon as tied up the work of overhauling her was started at once. The greater part of the job orders have been given out and there will be no delay in getting at the work.

It is the first time this battleship has come to a dock in the Atlantic ocean. She was built in the Pacific joined the around the world fleet at San Francisco and this is her first appearance in the Atlantic and other than being at Hampton Roads, this is her first port.

The Wisconsin was built at the Union Iron Works, San Francisco, and she was laid down in 1896 and launched in 1901. She is 11,565 displacement, 5,164 net tonnage, 368 feet long, 72 feet 2 1/2 inches extreme width, 23 feet 6 inches mean draft. She is twin screw and has two military masts. She has 12,222 indicated horse power, a speed of 17.174 knots an hour and has a coal carrying capacity of 1,310 tons.

the rush job on the cruisers Salem and Birmingham at the navy yard.
The Loyal Temperance Legion social concertants are to be at the Congregational church on Wednesday evening.

There was a largely attended meeting of John F. Hill Grange on Monday evening. The lecturer, Wallace Dixon, presented a symposium on "The Grange," Miss Inez Remick giving a paper on the National Grange, Mrs. Charles Gale a paper on the "Pomona Grange," Miss Florence Hammond a paper on the "Subordinate Grange" and Mr. Fred Will one on "Grange Needs." Several selections were sung by the choir and assembled members. The next meeting will have a symposium on the schools. Rollading will take place that night on four applications.

London is far too big for England. It looks a toll on English life that definitely lowers the national vitality. It more than dominates the country; it drains it; it turns the country into little more than a sprawling suburb. It sets the fashions, runs the markets and passes the authoritative word of praise or condemnation on every form of article or endeavor for the whole of Great Britain. The healthy pride of particularism withers in its umbrage.

GOVERNOR DRAPER ACTS

Wants to Know If Infected
Beef Is a Menace

HE ASKS THREE QUESTIONS

State Board of Health Is Requested to Answer Them and Give Any Information Which It May Possess as Touching Upon the Matter—Order Regarding Diseased Beef Offered in the Legislature

Boston, March 9.—Governor Draper sent a letter to the state board of health asking information as to the conditions existing in Massachusetts applying to beef killed within the state, and also to that coming from without the state.

He not only asks three specific questions, but also requests the board to give him any information in regard to the general matter which the board thinks it important for him to have. The letter to Chairman Walcott of the state board of health follows:

"I desire information from your board in regard to the conditions existing in the commonwealth of Massachusetts applying to the beef killed within the state, and also to that coming into the state from outside. I wish your board would make a formal report to me containing answers to the following questions, so that the people of the commonwealth and their representatives may have proper and correct information on the subject referred to:

"1. Whether, in the opinion of your board, the health of the citizens of the commonwealth is properly safeguarded from the sale of beef infected with tuberculosis?

"2. Whether or not, in the opinion of your board, the statutes are sufficiently rigid in respect to the inspection of beef?

"3. Whether your board interprets chapter 329 of the Acts of 1908 as prohibiting the sale of beef from 'slightly infected' cattle?

"Any information in regard to this general matter which you think it important for me to have beyond what is referred to in the questions asked above I shall expect you to furnish."

In the house Representative Emerson of Boston offered an order directing the attorney general to report on the diseased meat matter. Mr. Bishop of Newton called attention to, and read the letter of Governor Draper to the state board of health. He then moved the postponement of the order for one week in order that the board reply may be received, and the motion prevailed.

In a statement prepared by the governor at The Post's request, after Draper had called on the state board of health for information, he says: "My request of a report from the state board of health upon the subject of infected beef is not any attempt to whitewash the subject, and no matter what that report may be the investigation will continue."

FORBES IS DEPOSED

Episcopal Priest Becomes Identified With the Unitarian Church

Boston, March 9.—On the ground that he could no longer subscribe to the doctrines held by the Episcopal church, Rev. Elmer S. Forbes of Cambridge has been deposed from the priesthood by Dr. Lines, bishop of Newark, to which diocese Forbes was canonically attached. Forbes has entered the Unitarian church and has been assigned work by the American Unitarian association, which has its headquarters in this city.

Under Episcopal church laws a clergyman has six months in which to reconsider a decision to sever relations with the denomination. At the expiration of the six months Forbes, not having retracted his renunciation of the ministry, his deposition was pronounced.

BICODY DECLARED INSANE

Indian Chief Attempted to Carve Up People in Railroad Station

Cincinnati, March 9.—Bicody, a Navajo Indian chief, who recently ran amuck in the Grand Central station and cut and injured three persons, was examined by an alienist and pronounced insane.

Bicody suffered from the hallucination that voices told him to kill various persons to save himself. He also believes that "the pale faces" killed his wife after he left Arizona.

Prosecutor Hunt of Hamilton county will ask the secretary of the interior to have the government pay damages to the victims of Bicody's knife.

ALLEY SHARKS MEET

Country's Bowling Champions Begin Matches in Pittsburgh Tonight

Pittsburgh, March 9.—The tournament of the American bowling congress has been going on here since Feb. 27 and will last until March 29, but the most interesting games of the meeting have been reserved for March 9 to 13. The international matches, in which the best bowlers of this country and Canada are entered, will begin tonight.

In the five man event are entered the Brunswick of New York, from the National Bowling association; the Bonds of Columbus, from the American bowling congress, and the St. Louis De Soto Stars, champions of the middle west. McGuirk and Grady of Paterson, the holders of the world's two man team record at 1318, will defend their honors. In the individual matches will be Fred Swartz of Brooklyn, the National Bowling association champion; Arthur Wingler of Chicago and Martin Kern of St. Louis, holder of the middle west title.

CARRIED OUT TO SEA

Young Aeronaut Loses His Life by Falling into Pacific Ocean

San Pedro, Cal., March 9.—While hundreds watched his frantic efforts to control a great balloon, which was swiftly bearing him 4000 feet high over the Pacific ocean, Lester Elkins, an amateur aeronaut, 20 years old, cut loose his parachute and dropped into the waters of the outer harbor to his death.

As the huge bag rose, it careened and was carried rapidly out over the water and was soon far out to sea. The parachute filled after he had fallen a short distance, but it was caught by a stiff wind and carried still farther out and fell into the ocean. Elkins' body was not recovered.

KEEL OF OUR BIGGEST WARSHIP LAID TODAY

Historic Date Chosen For Event
In Brooklyn Navy Yard

New York, March 9.—Ceremonies almost equal to those of a launching marked the laying of the keel of the new battleship Florida at the Brooklyn navy yard today. The occasion was marked by the presence of a large number of invited guests from Washington, New York and Brooklyn.

Today's date is a memorable one in the history of the navy. On March 9, 1862, the Monitor, which was constructed in Brooklyn, fought the Merrimac in Hampton Roads.

The Florida and her sister ship, the Utah, will be the two most powerful vessels of the United States navy and will be equal to any afloat. They will be 25,000 ton vessels. The keel of the Utah was recently laid at Camden, N. J. She is being constructed by a private shipbuilding firm, and there is great rivalry between her builders and the navy yard here in regard to the time of completion of the two ships. Every effort will be made by the government constructors in charge of the Florida's building to have her completed before the Utah is ready for launching. The local navy yard officials are proud of their record in constructing the Connecticut, flagship of the around the world fleet, but they will try to surpass that record in building the Florida.

There is already a Florida, a coast defense monitor, on the navy list, but she will have to yield the name to the battleship.

STRIKE IS HALF SETTLED

Speedy Adjustment of Lynn Stitches' Trouble Is Expected

Lynn, Mass., March 9.—What had been expected to be a general strike of 150 McKay stitchers in thirty-five shoe factories in this city, and which was begun Monday, is nearly one-half settled and indications point to a speedy agreement upon all points. Fourteen firms have either signed the new wage scale or agreed to do so today.

Both sides, without committing themselves to any formal proposal, appear to be in favor of entering upon a permanent and general agreement, by which all contentions shall be submitted to a board of arbitration for decision.

Actor Francis Is Missing
Chicago, March 9.—"Wait here, I'll be back in a moment," said A. B. Francis, a New York actor, when he left his wife standing in the waiting room of a railroad station Sunday night. Francis has not since been seen by his friends. The police have been asked to search for him.

Strikers Return
Brooklyn, Mass., March 9.—The factories of the W. L. Douglas Shoe company at Montello resumed their customary activity with the return to work of the 425 stitchers who had been on strike since March 1, causing the enforced idleness of about 1650 operatives.

Army Officer a Deserter
Washington, March 9.—First Lieutenant Edward L. Mains, Twentieth Infantry, has been dropped from the roll of the army for desertion.

AMBASSADOR IS PETITIONED

Asked to Depose Turkish
Consul at New York

SAID TO BE "GRAFTER"

Charges That Munji Bey Has Taken Advantage of Ignorance of Syrians, Greeks and Armenians—State Department May Be Appealed to if Redress Cannot Be Otherwise Obtained by Ottoman Subjects

Washington, March 9.—Three hundred thousand erstwhile Ottoman subjects now living in the United States have petitioned Kaizim Bey, Turkish ambassador to the United States, to urge that Munji Bey, Turkish consul at New York, be deposed for conduct which is termed by them "grafting," in that they allege that Munji Bey has taken advantage of ignorance of the Syrians, Greeks and Armenians seeking passports to their native lands, by overcharging them for his official signature and the Turkish stamps essential to those documents.

The members of the delegation seeking the removal of Munji Bey indicate that the embarrassments to which Ottoman subjects have been put may be brought to the attention of the state department if redress is not had by the action of the ambassador. The petition bears the signatures of the most prominent Turkish subjects.

Because of the prominence of the port of New York, and the fact that almost every Turkish subject coming into or leaving this country must deal with the consul, those who are now averse with him are said to be in the majority.

The charges made against Munji Bey will probably hasten plans by the Turkish government for a complete re-organization of its consular service. The "Young Turks," upon assuming control of the government proposed to make a special effort to increase trade with the United States by means of more active work by consuls in this country. The plan of organization will be largely modeled after that of the United States. The reports will be for the purpose of directing Turkish merchants to favorable markets here, at the same time opening up markets in Turkey for American goods.

The Turkish ambassador will send a representative to New York some time this week, it is said, to investigate the charges which have been made against Munji Bey.

Accused Man Makes Denial

New York, March 9.—Munji Bey denounced the charges of "graft" made against him in the petition for his removal filed by several thousand Ottoman subjects with the Turkish ambassador at Washington as fabrications, and said he courted a full investigation of his office here by the Turkish authorities at the capital. "The petition is inspired by a few enemies of mine, five or six, whose names I know, and there is not a word of truth in it," said Munji Bey. "I shall give the names of my enemies to the ambassador or his representative when I hear from him, and request that he take some action against them. If the ambassador does not see fit to take action I shall put the whole matter in the hands of our local authorities in Constantinople."

TWO-CENT RAILROAD RATES

Declared by Judge in United States Court to Be Unconstitutional

Kansas City, March 9.—Missouri's 2-cent passenger and maximum freight laws were nullified by a decision handed down in the United States district court by Judge McPherson, who held that both the commodity and passenger laws were confiscatory and unconstitutional. As a result, it is believed, there will be a quick return in Missouri to 3-cent fares.

Frank Hagerman, for the eighteen companies involved, asserts that the decision sounds the death knell of the 2-cent rate in every state in the union.

The state, on the other hand, declares emphatically that Missouri's fight for lower railroad rates will be continued.

WANTS NO PUBLIC OFFICE

Guild Turned Down Offer to Secure Him an Ambassadorship

Boston, March 9.—Former Governor Guild, whose name has been mentioned in connection with diplomatic services, gave out a statement in which he said that both Massachusetts senators had visited him while in Washington with an offer of their assistance to secure a diplomatic appointment for him.

Guild states, however, that he requested that neither privately nor publicly should his name be presented to the president for an ambassadorship or for any other office.

English Language in Guatemala
Mexico City, March 9.—Hereafter the English language will be taught in all the public schools of Guatemala, under an order of the minister of education.

SPECIAL MEDICINE OUTFIT

Thousands of Tablets Packed in Small Space For Roosevelt

New York, March 9.—Medicine enough for a regiment and surgical instruments enough to do the work of an ordinary hospital will be carried by Theodore Roosevelt to Africa, all condensed so as to fill a suitcase. There are 15,000 doses in the tablets, nearly 40 per cent of them quinine. The other medicines are to ward off diseases most prevalent in equatorial Africa, chemicals to make swamp water pure and palatable, cures for snake-bites, stimulants, opiates, knives and bandages.

These supplies, packed in unbreakable and airtight bottles of a vulcanite composition, fit into an aluminum case 15 by 10 by 8. This outfit has been made for the Roosevelt expedition by an American firm.

Liquid finds no place in the assortment, nor in the outfit for developing photographs prepared for Kermit Roosevelt by the same firm and put up in equally condensed form.

OLIVER SUCCEEDS KNOX

Will Represent Pennsylvania in Senate Until March, 1911

Harrisburg, March 9.—The Republican members of the two houses of the Pennsylvania legislature met in joint caucus this morning to select a candidate for United States senator to succeed P. C. Knox, who resigned March 4 to become secretary of state. Knox's term would have expired March 4, 1911, and the new senator to be elected will serve out the unexpired term.

Only one name, that of George T. Oliver of Pittsburg, was presented to the caucus today and he was unanimously selected.

The two houses of the legislature will ballot separately on the senatorship on March 16 and on the following day will meet in joint session to formally declare the successful candidate elected. The Republicans have a majority of 107 on joint ballot.

SUICIDE CLAIM BY HOWARD DEFENSE

Trial of Artilleryman Is Nearing the End

New Bedford, Mass., March 9.—The wife-murder trial of William C. Howard, the Fort Rodman artilleryman, neared the closing stage when the presentation of evidence was finished and the arguments were begun.

The closing evidence presented by the defense was of a medical expert character and was intended to show that the death of Ida Howard was due to drowning, and not to forcible strangulation or suffocation, the defense contending that the woman committed suicide because of despondency over her physical condition.

SUBJECT TO DESPONDENCY

Boston Policeman Takes Life of His Wife and Then His Own

Boston, March 9.—During a fit of temporary insanity at his home at 177 London street, Patrolman Daniel D. Spillane of Station 1 shot his wife, Mrs. Isabelle T. Spillane, through the forehead as she lay asleep, killing her instantly. He then turned the revolver upon himself, and an hour and a quarter later died from a bullet wound in the head.

Spillane, who for 21 years had been attached to the Boston police force, had for the last ten years been gradually failing in health, and for two years since the death of his only daughter, Agnes, aged 19, has been subject to deep fits of despondency.

ELECTIONS IN MAINE

Republicans in State Capital Wrest the City From Democrats

Portland, Me., March 9.—The only change in the political situation in the five Maine cities in which annual elections were held Monday was the swinging back to the Republican column of Augusta, where Frederick W. Plaisted has been mayor for three years.

Mayors were elected as follows:

Augusta Treby Johnson (R)
Brewer Ambrose F. Pendleton (R)
Belfast *Edgar H. Hanson (D)
Bangor *John F. Woodman (R)
Biddeford *Cornelius Harigan (D-I)
*Re-elected.

City Cannot Remove Poles

Louisville, March 9.—Virtual concessions of the claim of the Cumberland Telegraph and Telephone company that its Louisville charter is perpetual was made in the federal court. Judge Evans sustained the plea of the company for an injunction preventing the city from removing its poles.

FIVE HOURS OF ARGUMENT

Carmack's Close Friend Appeals to the Jury

CLAIMS FOR THE COOPERS

Fitzhugh Points Out That "Boy" Respondent Is Twenty-Seven Years Old—Fails to See Where Colonel Showed Himself to Be a Gentleman—Declares That Very Liberty of the Press Is at Stake

Nashville, March 9.—Mr. Fitzhugh has completed the opening argument for the state in the case against Duncan B. and Robin J. Cooper and John D. Sharp, charged with the murder of E. W. Carmack.

Fitzhugh's argument lasted for five hours and when he finished he was exhausted. The young attorney's speech had a noticeable effect upon the jurors, who leaned forward and listened breathlessly to every word. Fitzhugh was a close friend of Carmack and he is in the case at the special request of Mrs. Carmack. His peroration was especially dramatic.

"There will be many arguments made to you," he said, "to touch your hearts. You will be asked to be generous and sympathetic. They will talk to you of this boy here. Why, gentlemen, he is 27 years old, and some of the greatest achievements of men have been accomplished before a man is 30; and they will point to Colonel Cooper as a gentleman of the old school, as the last flower of the old southern chivalry."

"Do you believe it? Was he a gentleman when he used that awful language in the presence of Miss Lee? And when they talk to you of sympathy, just look over there. You see in sable garments the widow of E. W. Carmack. You see on her arm the 10-year-old boy who was the pride of E. W. Carmack's life. Did Duncan Cooper or Robin think of this widow or this boy when they shot down the husband and the father? Would it not have been better if Robin Cooper, instead of shooting the senator, had said to his father, 'Father, do not kill the father of this little boy; do not slay the husband of this fond wife,' but he did not."

"The question to be decided is whether or not the law is to be enforced. That question is to be decided by you. If murder is to be committed in the streets of our city without fear of punishment, can you tell who will be the next victim? The very liberty of the press is at stake, the security of the common people. It all rests with you and in your hands I place it unreservedly."

"AMERICANS OUR FRIENDS"

Patriotic Cuban Appreciates Efforts in His Country's Behalf

Havana, March 9.—The bill forbidding the further purchase of lands in Cuba by aliens was defeated in the house of representatives by a vote of 49 to 11.

Congressman Viondi, answering a complaint that Americans are rapidly absorbing all the land in Cuba, said: "I want to say the American people are our friends. The world has marvelled at a people who twice have had us to become free and independent. As a lover of my country, was as much concerned and jealous as any one on the two occasions the Americans occupied the palace, but I have seen them go and feel they are our friends."

HIBBARD CAUGHT NAPPING

Acting Mayor of Boston Accepts Parkman Bequest of \$5,000,000

Boston, March 9.—Acting Mayor Brand stole a march on Mayor Hibbard when, following the action of the board of aldermen in accepting on behalf of the city the \$5,000,000 bequest of the late George F. Parkman for public parks, previously accepted by the common council, he signed the order of acceptance.

A bill fathered by Hibbard is pending before the legislature to provide for the creation of a board to receive and administer the bequest, and it is believed the unprecedented action of the acting mayor will make such state legislation unconstitutional.

M'CURDY'S NEW AIRSHIP

It Travels Eight Miles in Eleven and a Quarter Minutes

Baddeck, N. S., March 9.—Flying eight miles in eleven minutes and fifteen seconds, Douglas M'Curdy, in his big aerodrome, the Silver Dart, established a new record in the work of the Aerial Experiment association, which is conducting a series of flights here under the general direction of Dr. A. G. Bell.

The long flight of the Silver Dart was witnessed by practically all of the people of this vicinity.

Eleven Jurors in Eight Weeks.

San Francisco, March 9.—The number of jurors passed in the trial of Patrick Calhoun for alleged bribery of a supervisor to vote for a trolley franchise, which has entered on its ninth week, has been reduced to eleven.

UNPROFITABLE UNIONS

President Elliot Opposed to Admixture of Racial Stocks

Montgomery, Ala., March 9.—"There should be no admixture of racial stocks," declared President Elliot of Harvard university in an interview here.

"I believe, for example, that the Irish should not intermarry with the Americans of English descent, that the Germans should not marry the Italians, that the Jews should not marry the French."

"Each race should maintain its own individuality. The experience of civilization shows that racial stocks are never mixed with profit and that such unions do not bring forth the best and strongest children."

"In the case of the negroes and the whites, the races should be kept apart in every respect. The south has a wise policy. I believe that Booker T. Washington has the right ideals and that Babols is injuring the progress of his race with his views."

PRISON ACCOUNTS SHORT

Discovery Made by Former Bankers Who Are Serving Sentences

Pittsburg, March 9.—Three convicted bankers, now prisoners in the western penitentiary here, have discovered an apparent discrepancy of more than \$25,000 in the accounts of the penitentiary and it is said that the amount may be found to be even larger.

The board of visitors of the western penitentiary appointed Henry Reiber, now an inmate of the penitentiary, to audit the books of the institution. Finding an apparent discrepancy and being unwilling to assume all responsibility, Reiber obtained the assistance of William Montgomery and J. B. F. Rinehart, both convicts in the penitentiary, who are said to have agreed with him in his findings.

Reports of the alleged discrepancy was made to the board of visitors, who are awaiting the return of Warden Johnson before making further investigation.

STRAUS TO BECOME AN AMBASSADOR

Will Represent United States in
Mikado's Domains

Washington, March 9.—While the information is unofficial, it is understood to be almost definitely settled that former Secretary Straus of the department of commerce and labor will be appointed ambassador to Japan.

While he was secretary of commerce and labor Straus had largely to do with the Japanese immigration question and his attitude on that matter is known to have met the approval of the Japanese government.

Mr. Straus has reached no definite conclusion, but it is not unlikely that a formal announcement of his appointment will be made in the near future.

M'GEE GOING TO JAIL

Thinks Unionism's Cause Best Served by Obeying the Law

Worcester, Mass., March 9.—The Worcester Molders' union gave a reception in honor of Frank J. McGee, New England organizer of molders, who has been found guilty by the superior court in Connecticut of intimidation in connection with a strike in New Haven, and is wanted in that city to serve a sentence of one year in prison.

McGee said he was prepared to go to New Haven and go to jail because, although he felt he had committed no crime, he thought the cause of unionism would be better served by compliance with the court's decree.

A SUCCESSFUL PROSECUTOR

Bank Examiner Moxey About to Retire From Government Service

New York, March 9.—Edward P. Moxey, the special bank examiner, whose work furnished the basis for the successful prosecution of Charles W. Morse, is about to retire from government service to take charge of the accounting department of the Guggenheim interests.

Mr. Moxey has been associated with many noted bank prosecutions. During more than ten years the government has secured convictions, it is said, in every case prepared by him. For the past few months he has been at work on the case against F. A. Heinze.

\$50,000,000 For Rapid Transit

New York, March 9.—Plans for an extension of the rapid transit system of this city, to cost about \$50,000,000, are being prepared by engineers of the Interborough Rapid Transit company.

Republican Caucus Held Monday Night

Remains of Miss Talyea Are Laid to Rest

Two Good Pool Players Matched for a Series

Exeter, March 9.—The Republican caucus last night nominated Fred S. Feltow for town clerk, John Wadleigh, Clarence Gatchell and John A. Brown for selectmen, Lewis S. Swain for tax collector, Kewell S. Tilton for highway agent, Charles W. Barker for treasurer. There were several contests. Arthur O. Fuller served as moderator, Robert Scott, Charles Batchelder and Harry Merrill as ballot clerks. This is today's winning ticket.

The annual town report shows that the valuation of Exeter last spring was \$2,277,410 and the appropriations for the past year were \$76,231.32. The town's liabilities are \$145,500 and the assets \$11,863, making the net town debt \$133,637.58. The appropriations were for various purposes, the state tax being \$6185 and the county tax \$9348.83, payment of town bonds \$3000, and various other contracts, amounting to the sum of \$76,231.32. The liabilities are in the form of bonds and notes, and the assets in uncollected taxes and cash in hand. The vital statistics show that there were 113 births, 32 marriages and 76 deaths.

The report of the fire chief, George H. Carter, shows that there were thirty alarms. Most of them were of but slight damage, the greatest loss being to the store of Herbert W. Edison in the Wood block on Nov. 17, when a loss of contents was \$1200. There were several alarms which called the fire department out to brush fires during the drought of last summer. The greatest loss of these woodland fires was on July 17 for a fire in the oak lands owned by S. R. Peavey and Isaac Stockbridge. The loss was rated at \$500. The department was called to Newfields on June 7 for a fire of a barn owned by O. S. Langley, and occupied by the farm implements of Fred Eaton. There were also a few false alarms. On Sept. 21 fire destroyed the house owned by Daniel Sanborn and occupied by Michael Grönschi, which was valued at \$1000.

Joseph Kruger, the five-year-old son of August Kruger, was drowned Monday afternoon in Fresh river, while playing on the thin ice about one hundred yards below the high street bridge. The little fellow was seen when he broke through the ice by Mrs. Edward Booth, who ran to his rescue and succeeded in catching him by the hair as he was going down, but his grip was so strong that she was, herself, endangered in the waters and was being pulled under. Mail Carrier George Higgins, who was making his rounds at that time, rushed to the two strugglers in the cold waters of the river. He was gone too soon, for as while Mrs. Booth was forced to relinquish her hold on the little fellow, she was in danger of sinking as the ice was giving way about her. Higgins succeeded in reaching the woman and with difficulty placed her beyond danger. It is a coincidence that an older brother of the boy was drowned in nearly the same spot two years ago. The police and neighbors searched for the body for the remainder of the afternoon, but late at

night had not recovered it. The parents are stricken with grief. The body of Annette S. Talyea of Boston was on Monday brought here for burial. She was a native of this town and lived here for a portion of her life, where she filled a post as telegraph operator. She also held a like position for a period of twenty-five years at Canton, Mass. She was in her sixty-ninth year of her age. There was no service here.

The marriage of Samuel Baker and Miss Annie Gold was performed at the office of the town clerk. A matched game of pool has been arranged between Peter Turcotte of this town and Frank Geyer of Hampton to be played at the Hampton house of that town. Turcotte is a player of note, and has recently defeated Geyer by six balls. He has played with men of prominence in many Massachusetts cities.

George A. Tilton of Princeton is spending a few days at his home in town.

A very pleasant masquerade party by the members of Gilman Grange was held Monday evening in Red Men's Hall. A large number was present and a pleasant evening reported.

A. D. SANBORN IS PARALYZED

State Commander in Grand Army

Franklin, March 9.—Capt. Augustus D. Sanborn of this city, commander of the New Hampshire department of the G. A. R., has been stricken with paralysis and is in an unconscious condition. Capt. and Mrs. Sanborn have a summer home at Alton Bay and they have been continuing their residence there since last season. Capt. Sanborn was born in Franklin Oct. 7, 1843, and enlisted as private in Company H April 26, 1861, and on Feb. 1, 1864 was promoted to the command of Company G. He was a charter member of Revere post, of Canton, Mass., in December, 1867, and in 1870 was transferred to E. E. Sturtevant post of Concord, and in October 1881 he became a member of Admiral Foote post of New Haven, Conn. He was elected commander in 1892. Returning to New Hampshire Capt. Sanborn joined George F. Sweat post of Franklin and was commander in 1903 and 1904.

TO PREVENT CRUELTY

Somersworth, March 9.—Charles F. Davis, formerly chief of police in this city under the town form of government, has been officially notified of his appointment as local agent in Somersworth and vicinity of the New Hampshire Society for the Prevention of Cruelty to Animals. Howard G. Nelson of Portsmouth, the state agent of the society was here recently in conversation with Mr. Davis and the official notice received is from James R. May, the secretary of the society. Mr. Davis will probably accept the appointment.

"PAID IN FULL" TUESDAY EVENING, MARCH 9.

"Paid in Full" which is to be presented at Music Hall, on this evening is one of the greatest successes of many seasons. This company played two return dates in Lowell, Salem, Lawrence and Portland and will score a hit in this city. Order tickets early.

A "NORTHER" VISITS TEXAS

Dallas, Texas, March 9.—One of the worst storms of the winter prevails over the southwest. Sleet, hail and rain alternate from Oklahoma City to Dallas. The mercury is below zero at Amarillo and down to the freezing point at Dallas, a drop of nearly 50 degrees since Monday. Only two telegraph wires are working between Dallas and St. Louis. It is feared the blizzard has hurt the fruit crop.

A POSTAL CLERK ACCUSED

Manchester, March 9.—Frank A. Considine, clerk in the local postoffice, has been made defendant in a suit for \$5000 brought by Harry L. Knapp, a subconductor on West Central street, alleging that he has alienated the affections of his wife. The papers in the case were served by a deputy sheriff for the May term of the superior court.

MRS. GEORGIANNA WHITE

Mrs. Georgianna White, widow of Dr. Joseph W. White, died on Monday evening at her home, 29 Austin street, at the age of 78 years, 5 months. She was well known and had a great host of friends. She leaves a daughter.

WHEN YOU FEEL THIS WAY IT IS YOUR STOMACH

No one, as a rule, needs to be told when he is sick. Nature is sufficiently emphatic to give that information without help. But to know what really ails you and, better still, to know what will relieve you, is then the important question.

Do you have a feeling of fullness or weight in the stomach; bloating after eating; belching of wind; dullness; loss of appetite and rish for food; a swelling of stomach and bowels; hard work in breathing; hard lumpish feeling in the throat; sometimes nausea and vomiting; pains around the heart; melancholy, etc.?

These are all signs of stomach trouble, and can all be cured by Kikkapoo Sagwa—nature's remedy of roots, barks, gums and berries.

People think they have heart disease, nervous prostration, collapse of vital organs, cancer, consumption and what not, when nine times out of ten they have Stomach Trouble. We know that Kikkapoo Sagwa will

cure diseases of the stomach and liver if taken according to directions, in from four to six weeks. We believe that very few people can be sick in their stomach and liver are in a healthy condition. Sagwa is prepared especially for diseases of the stomach and liver.

Mrs. M. E. Kneeland of 7 Farrington Pl., Portland, Maine, makes the following statement about Sagwa: "I was very sick with nervous prostration, and for one year suffered all the tortures of the disease; although under the doctor's care I continued to suffer and made no improvement until I commenced taking Sagwa. After taking four bottles I was completely cured and able to do all my household work, and have not been afflicted with disease since."

The Kikkapoo Remedies are for sale at all drug stores. If you wish to test Sagwa before purchasing, we will gladly send you a trial bottle by mail. The Kikkapoo Indian Medicine Co., Clintonville, Conn.

FIRST TORNADO THIS YEAR

Little Rock, Ark., March 9.—Reports indicate that great damage has resulted from a tornado which swept through this state. In one county one person was killed and a number injured.

Near Baueum, a cotton belt passenger train is reported to have been blown from the tracks. The tornado which crossed the Arkansas river within five miles of Little Rock, caused a waterspout more than 100 feet in height.

Nearly the entire town of Brinkley, Ark., was destroyed by a tornado and subsequent fire. The last advice is that the conflagration is beyond control, and that the entire town will probably be destroyed.

QUIET CORTELYOU

Silent Man is Still Silent as to His Future Movements

Washington, March 9.—George B. Cortelyou has turned over the treasury department to Franklin MacVeagh. He said last night that he will rest several days before going to New York. It is probable that he will leave Washington next Monday morning.

Mr. Cortelyou would not tonight say what business he will take up there; he said he will make an announcement within a few days. Mr. Cortelyou said several days ago that his business arrangements had been made two months ago. He will take to New York with him H. C. Weaver, who has been his private secretary in the treasury department.

Mr. Cortelyou would not discuss the statements of officials of the Consolidated Gas Company that he will not become its president.

WHEN HER BACK ACHES

A Woman Finds All Her Energy and Ambition Slipping Away

Portsmouth women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Here's proof of it in a Portsmouth woman's words:

Mrs. C. W. Ham, 120 State St., Portsmouth, N. H., says: "I had my first experience with Doan's Kidney Pills about three years ago. At that time I was suffering from backache and a lameness across my loins and knew that something had to be done. I resolved to try Doan's Kidney Pills and obtained them at Phillips' drug store. This remedy checked the backache and relieved the lameness in my loins. I have appealed to Doan's Kidney Pills on several occasions since and they have always given me prompt relief. I know of many other persons who have used this remedy with the same beneficial results."

NATION'S SEED POTATOES

Maine will Soon be the Center of Supply

Speaking of the potato crop in the Aroostook the Bangor News has the following to say:

And while nearly of Maine is sweating and sputtering over the uncertainty of the potato situation, the fact that Maine is about to be the seed potato region of the entire nation has become an established fact. Actual trials, made over a series of years and under many varying conditions in more than half the states in the Union, have proved beyond dispute that it is cheaper to send to Aroostook county and pay high prices for potatoes to plant, and to pay high freight rates to Virginia as well as Michigan, to Florida as well as Pennsylvania, than it is to plant the home grown seed and run the hazard of securing an indifferent or a decidedly poor crop. In Kentucky, potatoes planted early in August and dug when half grown, and then saved as seed for the next year, give twenty-five per cent better yields than those dug after they are ripened, but the Aroostook potatoes, grown in a short season and rushed along for a few weeks in mid-summer, give far better results than those that are checked in mid-growth in the blue grass state.

It is right here, in furnishing seed potatoes for the nation, that Aroostook and all of Maine have secured what may be termed a complete monopoly over all the rest of the world, a monopoly which has been gained without tinkering any tariff laws and a monopoly that will hold and extend while mankind continues to eat potatoes.

Every day of good weather brings large quantities of stock to market and this month every farmer should bring in what stock he has to sell as prices after the last of March are liable to tumble.

Then price is holding up remarkably well and \$1.70 is the prevailing price reported from New York say: Under lighter supplies and influenced by stronger outside advices, the potato market remained firm this week, although the undertone on foreign stock was weaker, in view of the liberal quantities reported on the way. The activity of the Board of Health in condemning everything that savors of rot or decay has inspired confidence in out of town buyers, who feel certain that there is no cause for suspicion or misgivings in connection with any tubers shipped from this market.

Maine stock was in large volume and in more active request, although prices were unchanged. The stock was of excellent quality, but considerable quantities were not so well graded as previous shipments. Nevertheless, offerings were in more active demand than other potatoes, and they were disposed of as fast as they arrived. In point of size there was little difference between the Maine and the foreign stock, but the color of their outer was so much brighter that buyers gave it the preference.

Receivers predict that the outlook for next month indicates firm prices, but that a change is likely to occur about the end of March.

PRUSSIC ACID IN PLANTS

In Earlier Stages Most Plants Contain More or Less of It

Everybody is aware that prussic or hydrocyanic acid is one of the most violent poisons furnished by nature. And this connection by far the most interesting plant, from the medical point of view, is the cherry laurel. It is due to the hydrocyanic acid contained in its leaves that cherry laurel water possesses soothing and sedative properties.

It may further be noted that the black or wild cherry, from which "Kirsch" is prepared by fermentation and distillation, and the wild sloe, which yields an exquisite liquor on the maceration of its crushed stone, owe their properties to hydrocyanic acid.

But it is a strange fact that certain shrubs such as the elderberry, red currant and yellow flowered currant, contain hydrocyanic acid in their leaves, while the ripe fruit does not contain the slightest trace. The leaves of the black currant and of the gooseberry are also totally devoid of it.

It does not appear that any of the plants mentioned above have ever caused any real cases of poisoning. There is, however, a certain species of leguminosae, which quite recently has caused a number of cases of poisoning on account of the hydrocyanic acid it contains. The plant in question is the Java bean.

An important cargo of beans was dispatched from Nider to Rotterdam at the beginning of 1905 and four persons who partook of them died with symptoms of poisoning. In November and December of the same year similar beans occasioned numerous accidents among horses, horned cattle and pigs in various parts of Hannover.

The Java bean is not the only vegetable dangerous to cattle. The seeds of several kinds of vetch come in the same category. There would indeed

NO COAL STRIKE

Anthracite Miners Will Not Strike Before Fall at the Earliest

Seranton Pa., March 9.—The situation in the anthracite fields, at best, is somewhat angled. On the one hand are the operators with ten million tons of coal in storage and not wholly averse to a short suspension; on the other hand are the miners, their ranks greatly depleted and not in an advantageous position to strike just now. And yet the agreement between employer and employed expires in April. What will happen at that time is a problem. It is reported that even if the operators persist in their refusal to grant any concessions, President Lewis will advise the mine workers to remain at work for the summer, while the union is being strengthened, and wait until fall before taking further action.

Those who hoped that John Mitchell, formerly president of the national union, would be asked to aid in the negotiations with the operators, will be disappointed, for President Lewis has made it evident that he will follow out his own policies regarding the situation and conduct the negotiations himself.

Organizers of the Miners' Union are today speaking in scores of mining towns throughout the anthracite region in the effort to increase the membership of the Union.

NEW FOREST RESERVE

Roosevelt Signed Proclamation Adding 5,600,000 Acres

Among the last official acts of President Roosevelt was the signing of proclamations creating additions to national forests in Nevada, South Dakota, California, New Mexico and Arizona, aggregating 4,980,726 acres. These proclamations were all signed last night. This new forest land brings the total National forest area up to 195,013,980 acres.

The national forests which have been enlarged and the size of the additions are as follows: Lincoln national forest, New Mexico, 81,187 acres; Alamo national forest, New Mexico, 248,911 acres; Carson national forest, New Mexico, 399,000 acres; Apache national forest, Arizona, 483,900 acres; Sitgreaves national forest, Arizona, 721,250 acres; Zuni national forest, New Mexico, 239,000 acres; Tahoe national forest, California and Nevada, 238,470 acres; Mono national forest, Nevada and California, 698,580 acres; Sequoia national forest, California, 28,160 acres; Lassen national forest, California, 517,794 acres; Trinity national forest, California, 81,800 acres; Shasta national forest, California, 567,678 acres; and Plumas national forest, California, 52,595 acres.

All of the land will be put under administration at once and managed in accordance with the principles of forestry now practiced by the government. In most of the territory added the chief problems will be to preserve the forests by wise use, to keep out forest fires and protect the timber on the watersheds of streams which irrigate the rich farm and fruit lands in the valleys.

TESTIMONY FILED

Philadelphia, March 8.—The testimony of the government in its suit against the anthracite carrying railroads and certain coal companies to dissolve a so-called trust agreement alleged to be existing among them has been filed in the circuit court of the United States for the eastern district of Pennsylvania. The suit was begun here on June 12, 1907, and many hearings have been held.

The next move will be for the government to file a motion appointing a certain amount of time for the defendant companies to present their witnesses for examination. After all the testimony is in and filed with the court for review, arguments will be had on the case.

It seems probable that a year or more will have elapsed before it is legally decided whether a hard coal monopoly, as alleged, exists in Pennsylvania.

CHRIST CHURCH WEDNESDAY

Rev. C. Le V. Brine, the rector of the Christ church, will deliver a lecture at the 7.30 evening service on Wednesday. He will take for his subject, "The Rerom of Anglican and Eastern Orthodox Communion."

People Will Talk You Know

And that's the reason why Dr. Pierce's Family Medicines are advertised so little now-a-days. They have made hundreds of thousands of cures in the past 40 years, and some of the grateful people whom they have restored to health are to be found almost everywhere. There's scarcely a hamlet that don't contain some. Look them up. Interview them. They are living, walking, active advertisements

For Dr. Pierce's Family Medicines.

You can believe your neighbors. Therefore ask them. What cured them will very likely cure you, if similarly afflicted—only give them a good, fair trial.

It's a good, sound, common sense policy to use medicines only of KNOWN COMPOSITION, and which contain neither alcohol nor habit-forming drugs. The most intelligent people, and many of the most successful, conscientious physicians, follow this judicious course of action. The leading medical authorities, of all schools of medicine, endorse the ingredients composing Dr. Pierce's medicines. These are plainly printed on wrappers and attested under oath. There's no secrecy; an open publicity, square-deal policy is followed by the makers.

INVALIDS' HOTEL and SURGICAL INSTITUTE, BUFFALO, N. Y.

A model Sanitarium with every equipment and appliance and a complete staff of experienced and skilled specialists for the treatment of the most difficult cases of Chronic ailments whether requiring Medical or Surgical treatment for their cure. Send two stamps to above address for THE INVALIDS' GUIDE B99K.

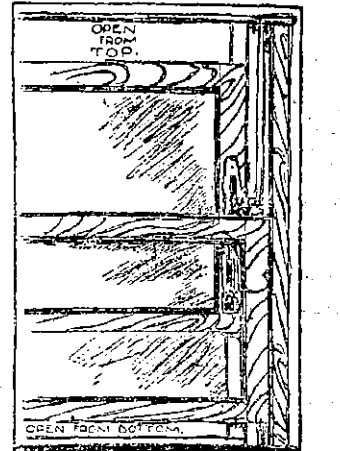

We have a profound desire to avoid all offense to the most delicate sensitiveness of modest women, for whom we entertain the most sincere respect and admiration. We shall not, therefore, particularize here concerning the symptoms and peculiar ailments incident to the sex for which Dr. Pierce's Favorite Prescription has for more than 40 years proven such a boon. We cannot, however, do a better service to the afflicted of the gentler sex than to refer them to Dr. Pierce's Common Sense Medical Adviser, a great family doctor book of 1000 pages, bound in cloth and given away gratis, or sent, post-paid, on receipt of 31 one-cent stamps—to cover cost of mailing only, or 21 cents for paper covered book. All the delicate ailments and matters about which every woman, whether young or old, single or married, should know, but which their sense of delicacy makes them hesitate to ask even the family physician about, are made plain in this great book. Write for it. Address: WORLD'S DISPENSARY MEDICAL ASSOCIATION, R. V. Pierce, M. D., Pres., 663 Main Street, Buffalo, N. Y.

IDEAL SAFETY WINDOW LOCK

Ventilates Without Sacrificing Security or Detaching Sashes.

The value of ventilation to health is acknowledged by every thinking person. To ventilate without sacrificing security, without mutilating sashes, has been looked forward to by all builders and owners. Such perfection seems possible in the safety window lock shown in the illustration. The lock consists of a ratchet and lock, whose bolt, pressed by a spring, is thrust into the depressions or ratchets and prevents the raising of the window. The casing of the lock is made of the hardest steel, and the spring of fine wire. It cannot be broken by the use of a jimmy, neither is it capable of being

Keeps out the burglar.

ing tampered with by means of a wire, string or knife. Even when the glass is out and the burglar tries to manipulate the lock through the opening, he is helpless, as his arms act as a wedge between the sashes and prevent their movement. The sashes can be raised or lowered a few inches for ventilation, but even then they are safe from the burglar. When it is desired to raise the sash to its full height it is only necessary to pull out the spring bolt. It locks automatically and all danger of forgetting to fasten the windows before retiring is thus entirely obviated.

Steer Trained to Stalk Sheep.

In a number of counties lying on both sides of the Sacramento River, in the central portion of California, every winter by the depredations of countless flocks of wild geese, which swarm over the broad grain fields destroy the young, sprouting grain-stalks. Indeed, so serious has this annual invasion become that nearly all the large farms have employees who regularly patrol the fields and do nothing but keep the feathered pests on the wing.

One of the most novel blinds or stalkers ever used in that section, or any other, for the purpose of destroying the geese, is that of a Colusa farmer who lives on the bank of the Sacramento. He has a big red steer which he has trained to stalk geese. The steer walks round a flock of geese in an ever decreasing circle, his master, armed with a repeating shotgun, walking beside him, but on the further side from the flock.

The geese have become so used to seeing animals grazing near that they pay no attention to them; so the farmer is enabled to get within shotgun distance and pour a broadside into the flock while it is feeding on the ground, and two more shots before the birds are out of range when they rise.

This dumb hunter is held in great esteem by its owner and his family, it is needless to state, and receives the best of everything.

The Symbol of an Epoch.

The universal use of one and two dollar bills in the East always furnishes a detail of contrast to people from the West, where silver and gold are the rule, and paper currency almost unknown. On the East Side of New York even a fifty cent piece is looked upon with some distrust by newly arrived foreigners, who seldom see anything larger than a quarter in silver. Hand one out, and it is subjected to scrutiny as careful as a five dollar bill in the Rockies.

A New Yorker was receiving change from a Bowery barber, when the latter, after searching through his cash register for another bill to make up the amount apologized profusely.

"Any other day but Saturday I could give you paper," he explained, "but to-day there ain't any other way out of it. Everybody around here is clean out of change. I'll have to give you this Bryan."

And he handed out a silver dollar.

CRUISE OF ASIATIC SQUADRON

The Asiatic squadron, commanded by Rear Admiral Giles B. Harber, and consisting of cruisers Charleston, Cleveland, Galveston, Denver and Chattanooga, will sail from Manila on Wednesday to cruise for several months in Northern waters. The ships will visit every important port in the north, including Hong Kong and Vladivostok, and will later pass a month in Japanese waters.

ADMIRALS TAFT'S POLICIES

Count Okuma Thinks His Inaugural Speech a Strong One

Tokio March 9.—Count Okuma, former president of the Progressive party, has written a signed article for the Tokio Mainichi, in which he unreservedly praises President Taft for his policy as embodied in his inaugural address.

In regard to that portion of the address dealing with the treaty rights of aliens, Okuma says that it would be a matter for universal rejoicing should the delicate relations between the federal and state constitutions be adjusted in a manner thoroughly compatible with national credit and honor and the standing of the United States as a highly civilized power.

In respect to the naval program as laid down, in the inaugural speech, the count professes to concur fully. He writes that President Taft believes that such an outcome is an unavoidable demand of the times and ridicules the idea that it is directed against Japan. He asserts that this idea is a gross misrepresentation of both Japan and the United States, which believe equally that a strong navy is the best guarantee of peace.

Regarding immigration, the count cannot entertain the idea of restriction as a principle, but he is opposed to it as a temporary measure for preventing unnecessary excitement and irritation when Japan is unfortunately the object of unwarrantable suspicion.

In conclusion he says: "Japan's real motive was proven on the occasion of the visit of the fleet and now is understood fully by estimable Americans."

"Local Japanism is not of serious concern and will disappear when the Americans cease to be haunted by a needless suspicion. The true American sentiment will ultimately prevail, especially under the guidance of a great, fair-minded statesman of the eminently peaceful disposition of President Taft."

FOR INTER-CITY CONTESTS

Bellamy Club of Dover to Entertain the Warwick Club

A delegation from the Bellamy Club of Dover, Messrs. Varney, Henderson and Roberts, were here on Monday evening to extend an invitation to the members of the Warwick club to an inter-city and club match.

The invitation was accepted and the delegation from the Warwick club will go to Dover on March 17 when there will be several contests. These have already been arranged. The teams of five men each in bowling, eight men in whist, four men in pool, four in billiards four in pitch and two in checkers.

A return date has been arranged for this city March 31, when the same programme will be carried out. Last year there was a series of matches in billiard, pool and whist between the two clubs and it was productive of a great time for the members of both organizations.

NEW ORDER ON PHOTOGRAPHS

In Force at Navy Yard—Permission Must Be Secured

The new order of the navy department in regard to the taking of photographs on navy yards and naval stations, have been received at the navy yard here and will go into effect at once.

Under the new ruling of the department it will be necessary to get permission from the captain of the yard to take pictures and in addition, if the request is granted, the person taking pictures must file with the captain of the yard a copy of each picture taken, which will be sent to the navy department and filed away. These pictures may be used by the department but will not be given out for commercial purposes.

This order will be in effect on every navy yard in the country and it is intended to keep in check the amateur as well as professional photographers and keep the department in control of all pictures that are made.

Previous to this there has not been any restriction on picture taking about the yards.

At this yard permission will have to be secured of Captain C. J. Bouch, U. S. N., the captain of the yard.

There will be a large number from this city attend the automobile show in Boston.

Growth of Boys and Girls.
At five years of age boys are mainly taller than girls, but the girls appear to equal them at the seventh year, and continue this up to and including the ninth year, after which the boys rise again above the girls for two years. At about twelve years the girls suddenly become taller than the boys, continuing until the fifteenth year, when the boys finally regain their superiority in stature. After the age of seventeen there seems to be very little, if any, increase in the stature of girls, while boys are still growing vigorously at eighteen. Boys have a larger head capacity than girls at all ages. The difference is not a great one from six to thirteen, but subsequently the difference between the two increases very rapidly.

Gave No Warning.

On entering the stable suddenly the head of the house found the hostler and his own young son deeply engaged with the broken tail of a kite.

"How is it, Williams," he began, severely, "that I never find you at work when I come out here?"

"I know," volunteered his son, "in account of those rubber heads you're wearing now."

A French woman of fashion happened to see an organ grinder's monkey begging for money in the street, took a fancy to it, bought it and made a pet of it, dressing it in gaudy and fashionable costume. One day she was holding a fashionable reception in aid of some charity. In the course of the proceedings a process sat down at the piano, and, accompanying herself, sang a pretty song. As soon as she had finished the monkey, which was being made a great pet by the guests, seized a hat, and, holding it before each visitor, as it was wont to do in its organ-grinding days, took up a collection. To the amusement of everybody it completed its round and collected a large sum. Then, the task ended, it jumped on the singer's shoulder and, amid shouts of laughter, deposited the money in her lap. The charity, therefore, benefited in an unexpected manner.

Missing Opportunities.
 "I have no patience with a man who makes the same mistake twice," said Armes, rather severely, in speaking of an unfortunate friend.
 "Neither have I," agreed his wife, "when there are so many other mistakes to make."

American Printing Company

Ask Mr. Borden the capacity of his American Printing Co., and he will tell you that it is on an average of 115,000 pieces per week, or 50 miles of printed cloth every working hour. That looks larger than to say 115,000 pieces per week. As a matter of fact, in one working week the American Printing Co., on their 29 machines, printed 162,556 pieces of various styles. We could figure out the floor area of this mill and it would run up in square feet and acres larger than most New England farms.

Freight trains run right into the American Printing Company's storehouses and schooners sail right up to the company's docks, for not only do finished goods go out to practically all corners of the earth in great quantities, but of necessity raw materials must come in in greater quantities.

Through the courtesy of THE AMERICAN PRINTING CO. we are able to display in our window many of their latest designs.

CHURCHILL TO GO TO ROME

Winston Likely Man for Embassy

It is predicted, according to the Boston Traveler, that Winston Churchill will be ambassador to Italy. It is not said that Mr. Churchill has made any statement upon which this prediction is based; indeed, the contrary appears to be true, but it is said that letters have been received in Boston which contain the information that the author is study Italian with great assiduity and is rapidly becoming proficient in the language.
Mr. Churchill is passing the winter in a small southern town.
His Boston friends profess to believe that while he discloses nothing he has an understanding with President Taft and is assured of this important post in the consular service.
It will be remembered that Mr. Churchill was prominent in the Taft campaign in this state before the delegate convention.

DRUNK AND DOG

Needed a Policeman to Separate Them Monday Night

A drunk at the corner of Market and Deer streets was engaged in a funny stunt on Monday night.
The continued sharp barking of a dog attracted the attention of Officer West of the locality and as he arrived on the scene he found the man with the jag giving battle to a big bull dog. However, he was not balanced right to make all his kicks and swipes effective and by the time the officer put in appearance his luncheon was keeping the drunk very busy.
After the third round the referee called time and the drunk was tucked away for the night at the city hotel.

INCREASED RURAL FREE DELIVERY

Route No. 2 to Be Longer After April 1.

Peverly Hill Road to Be Served from Straw's Point During the 25 Mile Journey

The extension of a rural route from Portsmouth is announced.
The postmaster general on March 5 notified Postmaster Conner of this city this his request for an extension of rural route No. 2, via Straw's Point, Rye Harbor, and Cable Roads, was approved also on Straw's Point and Peverly hill road.

This extension will be put in operation on April 1.

All persons living on or adjacent to these roads can have this service beginning April 1, if they comply with the postal regulations and erect a rural box at some point on the route.

This new service will serve several hundred residents of Rye, and will also accommodate a large number of summer visitors.

Rural Carrier Louis Smith is wearing a very broad smile since the order was received, as this additional mileage will give him a route of about twenty-five miles and the maximum salary for a rural carrier, which is \$900.

Mail to be delivered on this route should be addressed to Portsmouth, N. H., R. F. D., No. 2.

JONES FIREMEN

Farewell Reception to Messrs. Anglin and Bartlett Last Night

The fire department of the Frank Jones Brewing Company gave a farewell reception and banquet to B. H. Anglin and E. B. Bartlett on Monday evening at the fire quarters on Albany street. With the members of the company and guests the party numbered fifty, who sat down to a well prepared spread produced by the company's chef, Levi Little.

The new chief of the brigade, Clarence H. Paul, was the toastmaster of the evening and kept himself and everybody else busy for several hours. The speakers were General Manager Howard Gray, Daniel J. Tracy, Morgan S. Dada, B. H. Anglin and others.

The entertainment was a feature of the affair and in which Thomas Fullam and William Nevins appeared in catchy songs and James McCabe was on deck with his funny stories. Numerous other artists were down on the program and everybody did their little bit to add pleasure to the occasion.
